

# What is Lifeline?

**Philips Lifeline** is an easy-to-use medical alert service that ensures older adults living at home get quick access to help, 24 hours a day, 365 days a year.

When you need help, just press your waterproof Personal Help Button that you wear as a pendant or wristband. A certified Personal Response Associate responds quickly, assesses the situation and summons help, whether it is a neighbor, relative or ambulance.

## **Who responds when I press my button?**

A caring and extensively trained Lifeline professional who has access to your pertinent health history and personal profile.

## **Why do I need Lifeline?**

Life is unpredictable. An unexpected fall or medical emergency could threaten your future health if help is delayed. But remember – the Lifeline service is not just for medical emergencies. It also allows you to:

- Answer the telephone without having to rush to grab a handset and risk falling
- Maintain your peace of mind knowing that help is just a press-of-a-button away

## **How much does the service cost?**

For a little more than a dollar a day, you receive the Philips Lifeline Medical Alert Service. You are not required to buy any equipment or make a long-term commitment.
